Dear Mr. Graham, Restoration Work - Park Farmhouse

following the completion of the works to completely restore both of the inglenook fireplaces, I can now confirm that The National Trust building surveyor has inspected the work and has given it his resounding approval. He has arranged for the fireplaces to be photographed so that the work can be recorded in the Gunby Estate archives.

Attending with him was Miss E.A. Dawson who is the senior Land Agent for the East Midlands District. She tells me that there are several buildings with Grade II listing on the estate which may need major works. She would like to speak to you about this work and so I have given her your telephone number.

This very important and historic building is all the better for the fine workmanship of your team in bringing these fireplaces back into use.

Yours sincerely,

Miss M. GILLINGS

Gunby, 4.5.99
